L'ÉLÉGANCE NATURELLE
DES GRANDS BOURGOGNES

A new historic distinction for the Maison: A Grape award in the brand-new MICHELIN Guide!

Dear partners, clients, and friends of the Maison Joseph Drouhin,

The MICHELIN Guide has written a new chapter in its guide and a new chapter for the wine world.

After more than a century dedicated to recognizing the world's finest gastronomic establishments, the renowned Guide is **launching its very first selection** devoted to Burgundy wine estates.

We are especially proud to announce that **Maison Joseph Drouhin** has been included in this inaugural selection and has been awarded a **MICHELIN Grape**.

This new **distinction** marks a significant milestone in the world of wine. Beyond the **prestige** it brings, what matters most to us is what it represents. Being part of this selection means joining a community of estates recognized for their unwavering **commitment** to quality, authenticity, and the purest expression of their terroirs.

This recognition is particularly meaningful to us because it honors the **philosophy** that has guided our Maison since its founding. Since 1880, the Drouhin family has pursued the same **ambition**: to cultivate its vineyards with deep respect for nature, to reveal the unique character of each terroir with the utmost precision, and to allow time to work its magic in preserving and passing on an exceptional winemaking heritage.

This MICHELIN Grape is a tribute to the **dedication of our entire team**. It is the result of years of patient work and the passion of all those who bring this philosophy to life, vintage after vintage.

We sincerely thank you for your continued trust, loyalty, and support.

Frédéric DROUHIN
